Dogordiya, Chotto Bariad (Beraid), Madani Avenue Road, Badda, Dhaka - 1212

PROFESSIONAL SUMMARY

Supply Chain and Logistics Operations professional with 8+ years of progressive experience in courier and last-mile delivery, e-commerce logistics, and industrial engineering. Proven expertise in managing end-to-end courier operations, including sorting, inbound processing, pickups, returns, inventory control, and issue resolution. Currently serving as Assistant Manager at Carrybee Express Ltd., a concern of US-Bangla Airlines, overseeing operations for 30,000+ parcels daily and leading a team of 120+ employees. Experienced in ensuring SLA and SOP compliance, improving operational efficiency, and implementing Lean and Six Sigma methodologies. Previously managed operations handling volumes of up to 76,000+ parcels per day.

PROFESSIONAL EXPERIENCE

Carrybee Express Ltd. (A concern of US-Bangla Airline). *Nov 2024 – Present*

Assistant Manager *Jan 2026 – Present*

- Lead and manage cross-functional teams of 120+ staff across all major courier operations, handling 30+ parcels daily through Central & Sub-Sort, Inbound, Pickup, Return, Inventory, and Data Entry functions.
- Direct Investigation, Reconciliation, Issue Resolution, Reprocessing, and Parcel Validation teams to ensure accuracy and accountability.
- Drive operational efficiency, team performance, service quality, and timely parcel movement across all handling stages.
- Ensure end-to-end operational control, regulatory compliance, and achievement of performance targets.

Senior Executive *Nov 2024 – Dec 2025*

- Oversaw operations planning, analysis, and execution to improve process efficiency across departments.
- Identified operational bottlenecks and implemented data-driven solutions to resolve them.
- Managed new project initiatives from planning through execution.
- Led resource sourcing and hiring efforts to meet evolving business needs.
- Coordinated cross-functional teams to align priorities and deliver results on schedule.

Pathao Ltd. (Courier Operations Department) *Sep 2019 – Oct 2024*

Senior Operations Associate *Jun 2023 – Oct 2024*

- Managed and supervised a team of 95+ employees, overseeing daily operations that processed 76k+ parcels across the assigned neighborhood/zone.
- Led hub operations and rider management, ensuring SLA and SOP compliance across the delivery network.
- Directed Sort operations, return-parcel handling, and no-entry/inventory control, improving accuracy and workflow efficiency.
- Took on elevated cross-functional coordination responsibilities, reducing processing errors and improving turnaround time while supporting process discovery initiatives.
- Introduced service improvement ideas to strengthen competitive positioning and customer experience.

Operations Associate *Sep 2019 – May 2023*

- Managed Inbound team operations, parcel dispatch coordination, workflow execution, and operational documentation across the courier operations pipeline.
- Ensured accurate and timely processing of inbound shipments in full compliance with SOP requirements.
- Maintained operational consistency and supported zone-level service quality through close coordination with sorting and inventory teams.
- Built a strong operational foundation that led to promotion into a senior, then leadership-track role.

Office Assistant — International Human Rights Organization *Oct 2018 – Feb 2019*

- Conceptualized, pitched, assigned, and monitored stories from origination through publication.
- Reported to the Editor-in-Chief on news articles for print, daily staff updates, and company newsletter development.
- Used Microsoft Word and other tools to prepare documents and internal communications.

Service Engineer — Concrete Technology *Aug 2017 – Apr 2018*

- Performed installation, setup, and maintenance of batching plant machinery.
- Developed, deployed, and integrated PLC systems and networks.
- Conducted consumer risk evaluations and supported regulatory inspections.
- Diagnosed and repaired equipment issues to keep machinery fully functional.
- Monitored operations, verified compliance, and coordinated with manufacturers on technical matters.
